Announcement

We invite you to attend our sale at Abilene on Tuesday Aug. 26, 1952. We are confident that the cattle we are offering will meet with your approval.

After starting raising purebred 10 years ago I am taking this opportunity of reducing my herd. I am selling all my grade cattle and reducing my purebred herd to only heifers sired by the great herd bull Beau Mercury which is being offered for sale now. The cattle are selling directly off of grass and are not fitted but are in excellent breeding condition. Bred to be top producers under all conditions suitable for cattle. Nearly all the females are bred to Curtiss Caylps 2D.

Guarantee

All purebred cattle in this sale will be sold under the Standard Guarantee endorsed by the American Shorthorn Breeders Assn. Certificates of registry and transfer will be furnished with each lot. Shipment will be made as soon as possible after close of sale with cost to purchasers but at their risk of loss or injury.

We will not be responsible for any accidents that may occur but will make every effort to provide for the safety and comfort of our guests.

Health of Herd

All animals have been tested for T. B. and Bang's within the last 30 days and Health Certificates will be furnished to enable them to be shipped into any state.

BEAU MERCURY - is a thick soggy bull close to then ground with a great head, plenty of spread of rib, square rump, and a very full quarter. He is out of a great producing cow that has never had a poor calf. He is one of Edellyn Modoc Mercury's best calves that will be old enough for service. He has many calves in this sale that will make excellent 4-H projects.
